

## Inspired to Learn

Our program is carefully designed to fit seamlessly into the busy schedule of working healthcare professionals. Perfect for those working in sonography or ultrasound tech, who would like to advance into a management or supervisory role.

The Bachelor of Science in Diagnostic Medical Sonography is offered in a completely online, flexible format that makes it easy to continue working while finishing your degree. Plus, your ARDMS certification immediately grants you 60 credit hours toward your bachelor's degree.

## Distinctive Features

- Earn your bachelor's fully online
- Complete coursework around your busy professional schedule
- Development business management skills with a Business Administration minor
- Gain 60 transfer credits from your ARDMS certification
- Finish your degree in 24 months, quickly placing you on a path to career success
