176% increase
This year we celebrated and honored Marian University’s 80-year legacy of transforming lives through education and service. It is with great pride that we continue to remain true to the very mission and core values under which we were founded so many years ago. Additionally, the announcement of The Marian Campaign: “Inspired Students, Stronger Community” signaled one of the most exciting developments in our recent history and serves to commemorate the energy, passion, and accomplishments of Dr. Richard I. Ridenour, President Emeritus. Construction is already underway on the new Dr. Richard and Leslie Ridenour Science Center and we are pleased to report that over $11 million has been raised toward our goal of $13 million.

We could not have done it without the assistance of so many. On behalf of those we serve, we are deeply grateful as your investment, support, and faith is critically important to ensuring we continue to meet the needs of our students, graduates, employers, and the greater community, both today and for generations to come.

It is with pride and sincere gratitude, we present to you the 2016–17 list of donors and sponsors. We invite others to join us in advancing our legacy of transforming lives, one student at a time.

In appreciation,

Stacey L. Akey
Interim Vice President for Advancement
Vice President Alumni, Institutional Partnerships, and Career Services

"I see The Marian Campaign as a fulfillment of a promise made to students: the addition of a new science facility. Every single person who has drawn up plans, called donors, or contributed financially believes in building a stronger Marian community. I take away a sense of pride in my community that we are all building a better learning environment for Marian students, because that’s what it’s all about: learning. In addition, a new science center will draw more students and faculty to Marian, increasing the value of my degree."

Nicole Feider ‘19  Biology Major, Chemistry Minor, Eden, Wis.

"The Marian Campaign means a lot to me and my fellow students, as it demonstrates another way the University is changing in order to better the instruction it provides. Knowing these steps are being taken makes me confident I am getting the best instruction I can at Marian University. The new facilities will help all of the students throughout their time at Marian University, even if they are not science majors."

“...To me, The Marian Campaign is an initiative which will greatly enhance the community within Marian. To be able to offer state-of-the-art facilities with the same amazing faculty will make Marian that much more marketable to prospective students, as well as create an amazing learning environment for the existing students. As a Biology and Chemistry major, I am extremely excited to move forward with my education in a state-of-the-art facility where I and other students can gain experience with new technology to better market ourselves to medical schools or graduate programs.”

"The Marian Campaign makes me proud to be a Sabre. The campaign shows that Marian is always looking to improve its facilities. As a chemistry major, improving the science building is important to me in order to ensure I have an up-to-date lab and classroom to learn in. Hands-on work in my field will give me experience with the type of lab equipment I will use in my future."

Taylor Lauscher ’20 Chemistry Major, Green Bay, Wis.
