

Nursing Program (3-Year)

College of the Professions

Inspired to learn

As a student in Marian's 3-year nursing program, every day will present opportunities to learn and to grow. The program runs consecutively for three years and consists of 15 week semesters that are held in fall, spring, and two summers. You'll benefit from extensive hands-on training in the Center for Health Professions — our state-of-the-art nursing resource and simulation facility — as well as gain experience in a variety of clinical settings that are incorporated into the program.

At the completion of Marian's 3-year BSN, you'll be prepared to take the National Council Licensure Examination (NCLEX-RN) and begin your nursing career.

The baccalaureate degree program in nursing and master's degree program in nursing at Marian University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

Approval: State of Wisconsin Department of Safety and Professional Services, Board of Nursing

Inspired to lead

Marian student nurses have a broad educational foundation that helps develop a deep understanding of society and health care practice. Learn from health care professionals and you will graduate prepared to succeed within an ever changing health care environment.

Students in Marian's 3-year Bachelor of Science in Nursing experience:

- Inclusion of all pre-requisites, general education, and nursing courses with the curriculum
- Professional preparation with a liberal arts foundation
- Undergraduate practice experiences in our nursing resource and simulation facility, the Center for Health Professions
- Clinical experiences in a variety of settings
- Lab-enhanced learning guided by professional nurses
- Essential knowledge and preparation for the National Council Licensure Examination (NCLEX-RN)

Inspired for success

Marian University graduates serve in the health care field across the country. In fact, 96.6% are employed or attending graduate school within one year of graduation. Marian graduates not only enjoy a rewarding lifelong career, but are also meeting the needs of the growing community.
