

MARIAN UNIVERSITY

Bachelor of Science in RADIOLOGIC TECHNOLOGY COMPLETION PROGRAM

Created for working adults to earn their degree in a convenient, flexible way

Our 100% online completion program is custom-made for working rad techs who are ready to take their education and career to the next level.

Designed to help individuals certified by the American Registry of Radiologic Technologists to conveniently and efficiently complete their bachelor's in less than two years, your certification is equivalent to 60 credit hours of upper-level courses.

To foster your continued personal and professional growth, we'll focus on helping you meet the always-changing needs of the communities and organizations in which you wish to serve.

Learn More, Do More

With 6 possible start times per year, our program will prepare you to:

- Develop the strong critical thinking and problem-solving skills needed to qualify for senior roles.
- Boost your career potential quickly.
- Maintain life balance by completing all coursework on your schedule.

The education you want, when you want it

We offer a rolling admission with six different start dates throughout the year — January, March, May, July, August, and October. We accept a maximum of 90 transfer credits and, depending on the number of transfer credits accepted, you could graduate in just 15 months.

Why earn a Bachelor's in Rad Tech?

Our completion program helps working radiologic technologists round out their technical training and builds on their professional experience to develop the strong critical thinking and problem-solving skills needed to gain leverage in the ever-expanding healthcare industry.

You're qualified for the program if you can say...

- I'm already a radiologic technologist
- I've completed all my clinical training through an associate degree or technical program
- I'm certified and registered with the American Registry of Radiologic Technologists
- I'm close to becoming certified and want to explore bachelor's program
